

## **BIGUI: Picture "Raspberry dreams" (2023)**

**€750.00**

In this work I wanted to capture the effervescent vitality and joy that emanates from nature. I used vibrant acrylic paints to accentuate the rich reds and soft greens to create a tribute to the beauty and abundance we can find in the simple things in life. This painting exudes an energy that invigorates while providing a calmness that brightens and enlivens any space. The painting has been stretched on a 3 cm gallery stretcher frame and the sides of the picture have been painted - so the painting can be hung without a frame
