

Ella Joosten: Picture "Reflection 5 and 6" (2022)

€3,200.00

I started from natural elements, such as branches, leaves, tree trunks. The whole interplay of colors and shapes intrigues me: the reflection on the water, the vibration, the refraction of the light. In the canvas you think that one moment you discover the Arcadian scene of dying nature, at the other moment the attention is drawn by a complicated arrangement of lines, shapes and colors. The painting is ready to hang. The painting can be hung as a diptych, size 100x150cm. Ofcourse the painting can also be hung alone, and is also for sale separately. The size of one painting is 50x150cm.
