€7,200.00

In my work, acrylic and oil merge in an abstract, pop-like play of light and reflection. I paint with passionate brushstrokes to capture the vibrant energy and pulse of the city. The water reflects a kaleidoscope of colors that symbolize the dynamism and constant flow of urban landscapes. This artwork is meant to transport the viewer into a world of hope and wonder, filling their space with unbridled joie de vivre. Modern work of art, large format, can be opened directly, colorful pages The unusual format goes exceptionally well with a sofa, dining table or desk.
