

Birgit Horn: Picture "LÄNDELEI" (2023)

€1,900.00

The viewer is literally drawn into a picturesque and summery landscape. The gaze wanders into the distance, and as you stroll along the path, you may catch sight of a tiny figure in the distance. The power line, on which oversized pieces of laundry flutter in the wind, forms a visual link between heaven and earth. This is an idyllic place, characterized by the freedom of the fluttering laundry, the path of change and the rich colors of summer. A haven of peace as a counterpart to the perpetual flow of information to which we are exposed.
