

Sabrina Seck: Picture "cat in love" (2024)

€9,900.00

Inspired by comics and pop culture, this painting intensely captures the emotions of a romantic dynamic as the two cannot escape their mutual attraction. The figures represent passion and strength, tied into reality with a touch of realism. My work radiates energy and brings vibrant colors and love into the home. The work has been coated with resin, giving it added exclusivity.
