

Sabine Schramm: Picture "Sandpiper | Sandpiper (Serial No. 220901)" (2022)

€1,800.00

Who does not know these funny guys? Like a wound-up toy, they run nimbly in front of the waves on the beach to grab one or another tidbit ... This picture brings back memories of the last sea vacation. The sea is in the blood of the artist - sea, waves and surf on the coast remain the primary inspiration for her paintings. This funny bird, the "sandpiper", may not be missing. Sabine Schramm wants to tell a story and create a harmonious, positive sense of place. Each work is created from her strong visual and emotional memories, with her associated thoughts as integral to the painting as the shapes, colors, and especially the light.
