

KNÖ-REI: Picture "675-GK" (2025)

€2,600.00

An eye-catching painting full of geometric poetry in a very representative color combination of black, grey and spectacular red. Several squares are layered on top of each other, opening up and creating space for the bright red square, which immediately draws the eye and becomes the central focus. Under black light, the work then undergoes a drastic visual change to become a spirited work of light - the fiery red always remains the dominant center. This red was mixed by hand from various fluorescent colors. The entire work also captivates with its finely nuanced feel. Painted on artist's canvas with high-quality acrylic paints. The painting has painted luminous side edges and should be hung without a frame. It is signed on the back.
