

Irina Laube: Picture "Summer green II" (2021)

The suggestions and inspirations for my work I take from nature with its various facets. The process of image creation is based on deliberate coincidence and exact further development. The focus of my work are the colors, structures and shapes, which I want to implement with the various techniques in a certain harmony. Not to reveal too much, not to imitate, which also means not to dictate. Green summer landscape with the clouds on the sky. The sides of the picture are painted, finally the varnish with UV protection.
