

## Karin Döring: Picture "AROUND THE ECK" (2024)

€1,900.00

In this painting I have used the dynamism and balance of the colors to create an intense, almost hypnotic effect. The use of acrylic allows for bright and clear colors that overlap in geometric patterns. This artwork embodies passion and energy that can fill a space with positivity and inspiring excitement. Each angle offers a new perspective that encourages thought and inner reflection.
