

Ro: Sculpture "Cat asleep" (2022)

€1,850.00

The sculpture was made from a single piece of wood and lightly stained with white acrylic paint. It depicts a white with lightly hinted stripes cat lying on her back. Her eyes are closed. The sculpture is very cuddly and lively, so many exhibition visitors felt like tickling her belly, as is often the case with real cat. The sculpture "Cat asleep" can lie on any surface: both on a pedestal and a pillow or carpet. Indoor sculpture. Not suitable for outdoor use. Signed with AnRo
