

Oleg Breininger: Picture "Remote view" (2013)

€1,600.00

"distant view" pastel on pastel paper Natural spaces marked by use are the subject of my constant observations... Part of the theme are also the limited possibilities that characterize the use. By visualizing time-related influences of certain processes, exaggeration of effectiveness, regeneration processes, maximum receptivity of interventions and reversal of habitual impressions, the view is drawn to the fact that capacities have a limited endurance and reflect in a positive sense the capacity of nature to suffer. The role of man in the use of nature will be questioned.
