

Dirk Groß: Picture "Center" (2023)

€6,000.00

The pastel-looking colorfulness of this unique work gives each room a particularly individual touch. Through the graphic richness of detail and the variety of compositional and graphic elements, viewing this work of art becomes an exciting "journey". Everything is one, interconnected and interacting. Everything flows (Latin: *Panta rhei*), changes. Nothing is static, nothing is permanent. Except the source of everything is eternal... I have based the work "Centering" on these thoughts.
