

Regine Lange: Picture "Splash of color" (2023)

€690.00

Sometimes I dive into the abstract world full of color and diversity. This picture is to please the heart and bring color into life. It is created on a simple 50x50 cm canvas with acrylic paint. The edge also has color. It is recommended to fix it in a white shadow gap frame. This gives the picture even more intensity and unfolds its full splendor.
