

Kerstin Forster: Picture "Spring feelings (3)" (2021)

€700.00

This expressive mixed media work on 300g watercolor board was part of an outdoor exhibition titled ".Trotzdem.jetzt" during the first lockdown. It hung oversized on a banner at Schliiffelmarkt, the center of Ingolstadt's old town. What is particularly iridescent about this work is the image within the image motif, through which the actual motif and the background enter into a dialogue with each other on two levels. In an expressive, mixed style, this work shows a landscape with a stream and stones in the foreground, wide fields and meadows and towering clouds in the background.
