

Heike Schumann: Picture "City Country River" (2024)

€2,200.00

The work "Stadt Land Fluss" in the style of contemporary art is unique. The sail painting shows a section of a regatta scene, with the incorporated sailcloth and the combination of block lettering and painted elements creating a dynamic and texturally rich surface. The high-contrast color scheme and the suggestion of houses lend the picture a certain tension. The work is a unique piece on canvas, painted with high-quality acrylic paints and is signed on the side of the stretcher by the artist.
