

## Nicole Leidenfrost: Picture "Abstract by the water" (2021)

€6,900.00

"Abstract by the water" This work of art combines the elements of people, landscape and water in an abstract composition that goes beyond the visible and stimulates deeper emotions and thoughts. The people are depicted as shadowy figures that merge into the landscape, their silhouettes surrounded by the colors and shapes of the water. There is a sense of unity between man and nature, as if they are part of a larger, flowing whole. The landscape itself is kept in abstract forms and textures. The colors alternate between deep blues, suggesting the depth and mystery of water, and earthy tones, symbolizing the solid foundation of nature. This mixture creates a harmonious tension between stability and movement, calm and dynamism. The artwork is in two parts.
