

Anne Samson: Picture "Morning fragrance" (2024)

€995.00

The air is fresh, it is still quiet. A calm morning. Many beautiful colorful flowers, close together, swaying. In the wonderfully clear air. A very pretty still life with flowers reminiscent of tulips. I have painted thin layers of color so that all the wonderful mixed tones could emerge, which make the pretty picture shine and make it so lively. The color is expressive, the shapes reduced and expressive. Very decorative and modern.
