

Sabrina Seck: Picture "Areion" (2022)

According to ancient Greek mythology, Areion emerged from a union of Poseidon with Demeter. Looking at this muscular and sublime animal, one might wonder about a divine connection. Horses not only have a complex social behavior, but also an enormous memory. The sight of these animals often makes our heart beat faster, so we are enraptured by the "divine" beauty, coupled with the physical strength. Who is surprised that Areion comes from a divine mating?
