# Anja Struck:
# Picture "in soft sand" (2022)

A person is lying on the beach in the sand, legs crossed, hands clasped behind his head, looking at the sea in the distance. The viewer sees the depicted person from behind. The person is wearing a green hat, hair and face are therefore covered. The pants are depicted in a warm red-brown, the shirt is striped white-blue and the person wears green beach slippers. Due to yellow paint strokes on legs, hat and arms, the viewer has the feeling of a warm summer day, although the sun is not visible. The sky is blue, with small white clouds drifting through. The viewer is put in a beach and vacation mood, feels the sun on his skin, and while looking at it himself gets into a mood of relaxation and dreaming. The blurring of the color brings blurriness into the image and thus causes a mood that immediately captivates the viewer.
