

Uli Fischer Art: Picture "WILD LION" (2022)

WILD LION Again, a very modern and colorful painting by Uli Fischer. It is to represent a very expressive wild lion. Lions are fascinating animals that inspire me again and again. I love this strength and also the terrific expression of the eyes. Protect all animals, because they are on this world longer than mankind. The picture should be fun and bring joy as well as decorate a beautiful room. Acrylic / 2022 www.uli-fischer.net
