

Hasso Heybrock: Picture "Sky walk 1" (2022)

€1,550.00

Already in our childhood the moving clouds in the sky inspired us to fantasies and let us dream into the distance. The information emerging in the sky formations and moods inspire us and influence our mind. The "sky walks" reflect this in light abstraction, color and form, leaving the art viewer free to wander and feel for themselves in this sphere. "Sky walks" is a small series of three paintings of the same format with the same sujet (sky walk 1 - 3).
