Sibylle Bross:
Picture "Horizon" (2023)

Here we see a young woman from the side. The artist stands with her easel opposite the model and puts the motif directly on the spot out of the paint, with pasty brushstrokes with their oil paints in light and color. Long the model can not hold the pose so fast work is required. Spontaneously and passionately arise in conjunction with luminous acrylic backgrounds gems that seem to float weightlessly in the frame.
