

Alina Kloka: Picture "Autumn" (2024)

€1,200.00

For Alina Kloka, autumn symbolizes a place of security and love, inspired by childhood memories of her grandmother. The image of these memories is blurred, but the feelings are vivid. Kloka remembers the feeling of sitting on the porch, surrounded by an autumnal idyll, while her grandmother cooks in the kitchen. Although details fade with time, the emotions of love and joy remain succinct. Kloka transforms these deeply personal feelings into her art, which is more than a visual representation. She embodies the everlasting connection and warmth of the moments experienced.
