

## **Ute Meyer: Picture "Taing of Norwick / Shetland" (2001)**

**€1,450.00**

This picture was created in my studio after a trip to the Shetland Islands, based on photographic notes. I was particularly fascinated by the dynamics of the flowing, bright water, which contrasts vividly with the dark, still rocks. I used expressive brushstrokes to create the textures of water and stone to capture the vibrancy and energy of the scene. The work is framed in gray glazed pine wood, which emphasizes the atmosphere of the picture. My signature can be found on both the front and the back.
