

Lana Frey: Picture "City Resonance" (2024)

€1,500.00

In the center of a bustling metropolis, where every corner is saturated with stories, there is the City Resonance. This is not a place, but a state of mind, where the sounds of the city merge into a single melody. Here every step on the pavement, every ringing of a tram, every whisper of wind in the park are notes in the great symphony of life. Skyscrapers, like guitar strings, vibrate with the touch of the wind, creating a harmony that can only be heard by sensitive hearts. In Urban Resonance everyone will find his rhythm, his melody, which will help him to open new horizons in the labyrinths of everyday life.
