**Picture "View from above to the Baltic Sea/Tranderup/Aeroe"
(2022)**

€1,100.00

This drawing was made up on the coast in sunny May weather on the south coast of the Danish island of Aeroe. The view goes over the slopes of the cliff to the water surface of the Baltic Sea and the trees deformed by the wind. The lines are drawn with black ink and a bamboo pen. On the watercolored areas the ink was washed out. The image carrier is a 640 gr watercolor board from Arches.
