

Hasso Heybrock: Picture "Sønderjylland 2023" (2023)

€1,550.00

Here in the north, the landscape is vast. The horizon is flat, above it stretches the high sky. In the summertime, the warm light bathes the landscape in delicate colors and creates flowing transitions that softly lose themselves in the vastness of the landscape. For the viewer, this scenery creates inner peace and relaxation, and the peaceful mood soothes the senses. I love to be in this landscape of southern Denmark and always find inspiration and leisure here.
