€1,350.00

This drawing depicts a geisha turned slightly to the right, taking a step back while looking over her left shoulder. She holds her heavy, neatly folded kimono with a firm grip on her chest. The drawing cleverly captures a moment of grace and contemplation, emphasizing the geisha's deliberate posture and the intimate gesture of holding her kimono close to her. The chiaroscuro technique enhances the scene, highlighting the folds of the kimono and the pensive expression on the geisha's face, creating a vivid contrast of light and shadow. This artwork explores themes of personal moment and introspection, showing the geisha in a reflective pose that combines tradition with a sense of individuality.
