

su sea: Picture "Bowie I" (2022)

€2,500.00

David Bowie, one of the most influential and changeable artists of his time. His inexhaustible creativity and transformability were for me the inspiration for this colorful portrait. Bright colors in pop art style do justice to the portrait of this dazzling personality. The mixed media work consists of acrylic paints, plastic masses, tissue paper, graphite, oil pastels. The image has texture due to the plastic masses used, the varnish is glossy.
