

Sabrina Seck: Picture "to port" (2024)

€2,000.00

In this work, I have captured the pulsating energy of a busy harbor through abstract acrylic colors. The intense blues and reds against the vibrant yellows and whites reflect the confusion and dynamism of the place. This composition invites you to lose yourself in the depths of the colors and feel the emotional movement that the harbor represents. In your home, this picture will radiate an aura of energy and inspiration that will enliven any room.
