

Uli Fischer Art: Picture "FANTASTICALLY VARIA" (2022)

After a small summer break 2022, the summer was really beautiful, I have finally started painting again. I had to paint this colorful picture, because in me it bubbled with creativity. I painted the picture with these modern shapes and colors very much. Important here, there are also different areas that were filled with gold leaf, copper leaf and silver leaf. Supported in painting I was here very often by my friend ALEXA :-), with the latest summer hits 2022. I love the picture and look forward when the work may hang in a great place. Wish you all the best, stay healthy, Your Uli Fischer
