

Anne Samson: Picture "Dream of spring" (2022)

€1,550.00

Christmas is now over, the year comes to an end, I look forward to brighter days and spring. Therefore, on my easel it is already spring: colorful flowers and green meadows can be seen, beautiful white, pink and lilac flowers, delicate and delicate, impressionist inspired and friendly and cheerful. The composition is subtle, although it is very multicolored and expressive. It is light and fragrant and simply wonderful.
