€980.00

Andrea Rathert-Schützdeller likes to present her works and the associated themes in series, as this allows her to deepen and clarify the various aspects. In 2024, she created the series "Essences", which includes the colorful pictures entitled: "There is always a way" 1-3. At first glance, these works suggest landscapes, but those who know the artist can sense the deeper dimension: they reflect the artist's inner attitude, which is concerned with questions of resilience and finding ways out of difficult situations. These pictures impressively show how the artist translates her personal perspective and emotional depth into abstract forms and colors.
